WORK EXPERIENCE

Technical Architect
Discounted Wheel WareHouse · Full-time
12/2021 - Current
Hyderabad, Telangana, India

- Architected a robust backend architecture for the Discounted Wheel Warehouse project, ensuring scalability and efficiency.
- Collaborated with cross-functional teams to define project requirements and develop innovative solutions using Agile methodologies.
- Directed a team of 20 software developers, fostering collaboration and enhancing productivity through effective team management skills.
- Designed and implemented efficient RESTful APIs to facilitate seamless communication between the CMS and ERP systems.
- Developed clean, readable code following PSR-4 coding standards, along with comprehensive documentation including docblocks and comments.
- Engineered integration solutions between Magento 2 and SAP ERP, optimizing data flow and enhancing overall system functionality.
- Implemented version control using Git and Bitbucket, ensuring robust code management and collaborative development practices.
- Managed the entire software development life cycle, from system design through implementation and rigorous testing stages.
- Optimized application performance by leveraging backend technologies such as PHP, Laravel, and Node.js, enhancing user experience.
- Reviewed and tested code quality to uphold coding standards and best practices, significantly reducing bugs and support requests.

Technical Lead
Shimoba Software Technology LLP
03/2018 - 11/2021
Kolkata, West Bengal, India

SKILLS

- Magento 2.x | 10 years
- HTML5 | 5 years
- JavaScript | 5 years
- CSS3 | 5 years
- CSS | 10 years
- Python | 5 years
- HTML | 5 years
- React | 5 years
- DevOps | 4 years
- Git | 8 years
- REST/RESTful APIs | 7 years
- AWS | 2 years
- Docker | 4 years
- React Hooks | 2 year
- PHP | 10 years
- Team Management | 5 years
- System Design | 5 years
- PHP/MySQL | 10 years
- PHP, Laravel | 6 years
- HTTP | 10 years
- Data Migration | 1 year
- SEO | 10 years
- SOAP | 10 years
- Magento | 12 years
- Cloud | 2 years
- Product Management | 3 years
- Web Services | 5 years
- Joomla | 1 year
- SDLC | 10 years
- Digital Marketing | 2 years
- jQuery | 10 years
- WordPress | 14 years
- Communication | 14 years

- Led the development of diverse projects utilizing frameworks such as Laravel and Magento 2.0, and technologies including Node.js and AngularJS, ensuring high-quality software delivery.
- Collaborated with project leads and team members to design and implement solutions that integrated front-end Angular applications with Laravel and Magento APIs, enhancing overall system performance.
- Troubleshot technical issues during project execution, providing timely resolutions that ensured project milestones were met and client satisfaction was achieved.
- Innovated and implemented software modifications in response to evolving client demands, aligning project outputs with technical specifications and enhancing product offerings.
- Optimized development processes by leveraging tools such as Bitbucket and Jira, streamlining workflow and improving team communication and collaboration.

Senior Software Engineer
Excellence Tech
06/2015 - 02/2018
Kolkata, West Bengal, India

- Spearheaded the redesign of the furniture store layout, enhancing responsiveness and mobile-friendliness to improve user experience.
- Programmed extensions to process fourth level categories, effectively grouping them under second-level categories based on heading attributes.
- Managed end-to-end project activities, including conceptualization, development, testing, and maintenance to ensure timely delivery and high-quality outcomes.
- Analyzed requirements and scheduled project tasks to streamline workflows, ensuring alignment with client expectations and project deadlines.
- Participated in developing proposals for RFPs, evaluating vendor bids, and communicating product offerings to ensure the selection of optimal solutions.

Software Engineer
Isource Worldwide India Private Limited
08/2005 - 05/2015
Bangalore, Karnataka

- Developed custom extensions, themes, and plugins for Magento, enhancing E-commerce functionality and user experience.
- Ensured website performance optimization, achieving rapid load times and a seamless user experience across multiple devices.
- Implemented responsive web design, ensuring compatibility and accessibility for users on mobile, tablet, and desktop platforms.
- Utilized PHP, MySQL, and LAMP stack technologies to create robust backend solutions, streamlining processes for E-commerce applications.
- Led and managed a team of 5 developers, fostering collaboration and executing projects on time while maintaining high coding standards.

- MySQL | 10 years
- Drupal | 4 years
- CodeIgniter | 5 years
- Project Management | 6 years
- Open Source | 14 years
- Software Development | 10 years
- WooCommerce | 10 years
- CI/CD | 4 years
- Jira | 4 years
- Confluence | 3 years
- Web Design | 5 years
- Optimization | 10 years
- LAMP | 15 years
- Linux | 15 years
- JSON | 5 years
- E-Commerce | 15 years
- ERP | 6 years
- Bitbucket | 5 years
- Yii Framework | 3 years
- Flutter | 3 years
- SQL | 6 years
- Node.js | 4 years
- Microservices | 4 years
- Angular 2 | 2 years
- System Architecture | 6 years

LICENSES & CERTIFICATIONS

Executive Post Graduate Programme in FullStack Development
03/2022 - 08/2023
Certification in Fullstack Development from IIIT Bangalore

EDUCATION

BE in Information Science Engineering
Visvesvaraya Technological University
68.9%
09/2001 - 07/2005
